WHERE GRIT FINDS PURPOSE

ULTRABLADE® DFE

SHARKTOOTH™

100% AMERICAN MADE

UltraBlade DFE SharkTooth provides steady footing, consistent play, and a clean athletic appearance for a surface built to handle demanding use. Its rugged dual-fiber construction pairs precision-cut SharkTooth slit-film fibers with resilient monofilament fibers to add structure, durability, and a distinctive appearance.

The SharkTooth fiber is approximately 15% wider than our high-performing fibrillated long-slit fiber, and a refined knife-slitting process gives it an even sharper look. Made with state-of-the-art octene-based (C8) monofilament resin from Dow and Nova, and proprietary metallocene resin technology from Exxon, UltraBlade DFE SharkTooth provides unmatched value and longevity.

Sprinturf manufactures UltraBlade DFE SharkTooth in-house in the USA under strict ISO 9001-certified quality processes for a level of accountability that is rare in the turf industry. This translates to a remarkable 99.7% on-time delivery record, providing peace of mind that projects will be completed on schedule and within scope.

When investing in an athletic field to last for years to come, it makes sense to partner with a company that offers exceptional quality, superb service, and accountability from pellet to play. That is the Sprinturf model, delivering first-rate fields and the confidence that comes from working with a trusted partner.

CRADLE TO CRADLE CERTIFIED®

CERTIFIED
cradle to cradle
bronze version 5.0

Cradle to Cradle Certified® is a registered trademark of the Cradle to Cradle Products Innovation Institute.

Beyond proven field performance, UltraBlade DFE SharkTooth is C2C Certified® Full Scope at the Bronze level according to Version 5.0. This independent evaluation across five sustainability performance categories gives owners and specifiers confidence in choosing a product designed to have a positive impact on people and the environment.

ALTERNATE ROWS

FIBER SPECIFICATIONS

Fiber A	**SharkTooth Slit-Film**
Denier	10,000
Thickness	135 Microns
Color	Field Green
Fiber B	**Diamond-Shaped Monofilament**
Denier	10,800
Thickness	330 Microns
Color	Lime Green

SYSTEM SPECIFICATIONS

Pile Height	1.75-2.25 inches
Face Weight	42-50 oz/yd^2
Primary Backing	Non-Woven/Woven/Woven
Primary Backing Weight	8 oz/yd^2
Secondary Backing	Polyurethane
Secondary Backing Weight	22-24 oz/yd^2
Total Weight (without infill)	72-82 oz/yd^2
Tufting Gauge	3/8 inch
Tuft Bind	>12 lbs force
Permeability	>40 inches/hour
Infill Options	Per Specifications
G Max Warranty	Per Specifications

The information provided above represents the standard characteristics for the named product. If required this product can be manufactured to meet alternative specification requirements within our manufacturing tolerances. The above referenced data and supporting reports apply only to the sample tested and are not necessarily indicative of the qualities of apparently identical or similar products.

PRODUCT CERTIFICATIONS

Sprinturf materials undergo independent testing and certification by Firefly Sports Testing for PFAS, PAHs, hazardous metals and material consistency. Scan to learn more about our Material Testing & Compliance Certification Program.

MANUFACTURED WITH SharkTooth™ FIBER TECHNOLOGY

Firefly Sports Testing CERTIFIED TO EN 71-3

Firefly Sports Testing CERTIFIED TO BPA METHOD 1633

Firefly Sports Testing CERTIFIED TO ASTM F3496

WHY SPRINTURF

SPRINTURF
A PLAYCORE Company

Superior performance that stands the test of time

- Exceptional durability and longevity through time-tested polyethylene resin technology, including octene-based (C8) formulations proven to withstand demanding use and retain fiber resilience over years of play.
- Zero fiber failures since 2010
- More than 4,000 field installations nationwide

Sole source accountability

- One connected process from pellet to play
- 8-year manufacturer's warranty
- Independent third-party warranty insurance

Clean materials. Uncompromising proof.

- Third-party-certified materials rigorously tested for PFAS, PAHs, and heavy metals
- Leading the industry in material transparency to provide our customers with defensible documentation and confidence

PROPELLING COMMUNITIES FORWARD

Industry-Leading Cost Per Playable Hour

- Fiber extrusion, tufting, and coating in Sprinturf-owned U.S. facilities.
- Superior cost control due to manufacturer-direct model.
- ISO 9001-certified processes for consistent, repeatable quality.

Opening Day Delivered

- 99.7% on-time delivery record.
- Consistent, reliable installation with 90% of fields installed by Sprinturf's manufacturer-trained, in-house crews.
- Dedicated pre-construction team keeps your project on time and on point.

Experience the Sprinturf Difference

- Visit a nearby Sprinturf field to see the quality and performance firsthand.
- Tour our manufacturing facilities for an inside look at our superior process.
- View documented product certifications and laboratory reports.
