WHERE GRIT FINDS PURPOSE

ULTRABLADE® MXE

EXTREME

100% AMERICAN MADE

UltraBlade MXE Extreme delivers natural grass appearance, responsive playability, and long-term fiber durability in a premium monofilament system. The individual fibers create strong visual definition, while the resilient underfoot feel supports confident movement through cuts, acceleration, and repeated play.

With monofilament fibers measuring 330 microns in thickness, UltraBlade MXE Extreme provides substantial material strength for recovery, responsive feel, and exceptional durability. Its unique diamond-shaped fiber, made from exclusive, state-of-the-art octene-based (C8) resins from Dow and Nova, delivers exceptional value and increased playing time compared with other products on the market.

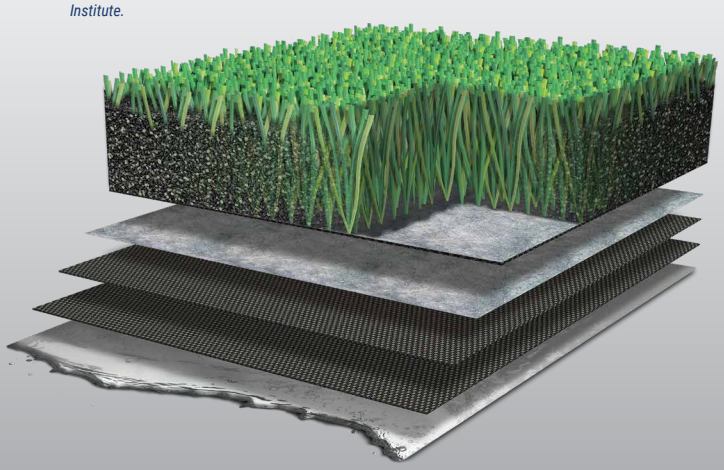

UltraBlade MXE Extreme has undergone rigorous independent third-party accelerated wear testing and maintains strong fiber integrity after 100,000 LISPORT cycles. This documented proof gives customers peace of mind to support a major field investment before budget, schedule, and field access are on the line.

CRADLE TO CRADLE CERTIFIED®

full scope
CERTIFIED
cradle to cradle
bronze version 5.0

Cradle to Cradle Certified® is a registered trademark of the Cradle to Cradle Products Innovation Institute.

Beyond proven field performance, UltraBlade MXE Extreme is C2C Certified® Full Scope at the Bronze level according to Version 5.0. This independent evaluation across five sustainability performance categories gives owners and specifiers confidence in choosing a product designed to have a positive impact on people and the environment.

SAME FIBER EVERY ROW

FIBER SPECIFICATIONS

Fiber	Diamond-Shaped Monofilament
Denier	10,800 (6 ends x 1,800)
Thickness	330 Microns
Color	Lime Green

SYSTEM SPECIFICATIONS

Pile Height	1.75-2.25 inches
Face Weight	46-52 oz/yd^2
Primary Backing	Non-Woven/Woven/Woven
Primary Backing Weight	8 oz/yd^2
Secondary Backing	Polyurethane
Secondary Backing Weight	24-26 oz/yd^2
Total Weight (without infill)	78-86 oz/yd^2
Tufting Gauge	1/2 inch
Tuft Bind	>10 lbs force
Permeability	>40 inches/hour
Infill Options	Per Specifications
G Max Warranty	Per Specifications

The information provided above represents the standard characteristics for the named product. If required this product can be manufactured to meet alternative specification requirements within our manufacturing tolerances. The above referenced data and supporting reports apply only to the sample tested and are not necessarily indicative of the qualities of apparently identical or similar products.

PRODUCT CERTIFICATIONS

Sprinturf materials undergo independent testing and certification by Firefly Sports Testing for PFAS, PAHs, hazardous metals and material consistency. Scan to learn more about our Material Testing & Compliance Certification Program.

Firefly Sports Testing CERTIFIED TO EN 71-3

Firefly Sports Testing CERTIFIED TO EPA METHOD 1633

Firefly Sports Testing CERTIFIED TO ASTM F3496

WHY SPRINTURF

SPRINTURF
A PLAYCORE Company

Superior performance that stands the test of time

- Exceptional durability and longevity through time-tested polyethylene resin technology, including octene-based (C8) formulations proven to withstand demanding use and retain fiber resilience over years of play.
- Zero fiber failures since 2010
- More than 4,000 field installations nationwide

Sole source accountability

- One connected process from pellet to play
- 8-year manufacturer's warranty
- Independent third-party warranty insurance

Clean materials. Uncompromising proof.

- Third-party-certified materials rigorously tested for PFAS, PAHs, and heavy metals
- Leading the industry in material transparency to provide our customers with defensible documentation and confidence

PROPELLING COMMUNITIES FORWARD

Industry-Leading Cost Per Playable Hour

- Fiber extrusion, tufting, and coating in Sprinturf-owned U.S. facilities.
- Superior cost control due to manufacturer-direct model.
- ISO 9001-certified processes for consistent, repeatable quality.

Opening Day Delivered

- 99.7% on-time delivery record.
- Consistent, reliable installation with 90% of fields installed by Sprinturf's manufacturer-trained, in-house crews.
- Dedicated pre-construction team keeps your project on time and on point.

Experience the Sprinturf Difference

- Visit a nearby Sprinturf field to see the quality and performance firsthand.
- Tour our manufacturing facilities for an inside look at our superior process.
- View documented product certifications and laboratory reports.
